

US Competition Rules Committee

Waiver List for Instruments Incorporating the Capability for Flight Without Reference To the Ground

The following instruments have been granted a waiver for use in US competition subject to the following requirements:

1. The presence of the instrument must be made known to the CD or Scorer prior to the first contest grid.
2. Prior to the first contest grid, the prohibited functionality must be disabled using the vendor's lockout mechanism for the entire period of the contest.
3. Prior to the first contest grid, the instrument version information and disablement must be shown to and verified by the CD, Scorer or their designee.

Failure to comply with these requirements may be subject to a contest penalty.

Effective Date	Manufacturer/Device	Version	Notes
13-May-2013	Butterfly Avionics Vario	1.0.6 (1347) & later	Lockout timeframe cannot be verified until the device has GPS lock for approximately 10 minutes.
